Reasons for Allowance

The independent claims recite personal directories on computer networks and limitations for the following:

"establishing a voice connection from a personal directory subscriber to a translation server that holds computer network address for a personal directory of the subscriber" and "confirming by the call at least one aspect of the retrieved information in response to a voice prompt from the translation server"

The prior art of record teaches personal directories on computer networks but not using voice connections and voice prompts as recited in the limitations. New search updates revealed no other prior art which teaches the limitations in the context of the claims. Therefore, claims 11-14 and 16-29 are indicated allowable.
